ABOUT 300,000 BABIES DIE BEFORE ONE YEAR

The Census Bureau estimates that 300,000 babies died in this country last year before the age of one year, and it is stated that one-half of these deaths were needless if all mothers were strong and infants were breast-fed.

Expectant mothers should strive to increase their strength with the strength building fats in Scott's Emulsion which improves the blood, suppresses nervousness, aids the quality of milk, and feeds the very life cells.

Physicians prescribe Scott's Emulsion; it is doubly important during nursing. No alcohol. Every drug has it. Insist on Scott's—the white food medicine. No advanced price.

WAGES ADVANCED BY STEEL TRUST

All Unskilled Employees Are to Receive An Increase of Ten Per Cent.

(BY ASSOCIATED PRESS)
NEW YORK, Jan. 7.—The United States Steel Corporation Thursday decided to increase the wages of virtually all of its unskilled employees about ten per cent.

A statement by the steel corporation said that the increase had been decided upon largely on account of present prosperous conditions. It added in addition to the new wages for common laborers, employees in practically all departments of the corporation will receive proportionate increases. Adjustments in the wage rates of the various mining companies controlled by the corporation are also under consideration.

The following statement was given out by Elbert H. Gary, chairman of the United States Steel Corporation:

"In view of the prosperous conditions now existing it was unanimously voted at a meeting of the presidents of our steel companies Thursday to recommend that three should be made adjustments of wage rates to take effect February 1. A subsequent meeting of the finance committee unanimously adopted the recommendations of the president.

"It is proposed to increase rates of common labor ten per cent. As to other departments increases will be equitably proportioned. Adjustment in wage rates among our mining companies are under consideration."

Magaha says the affair was instigated by a former business rival in Hagerstown, with whom the girl has been friendly.

SINKING OF LINER RENEWS CRITICAL SITUATION WITH AUSTRIA

Robert McNeely and map showing where Persia was sunk.

Once again American relations with Austria are strained, this time by reason of the sinking of the liner Persia by a submarine and the consequent loss of many lives, including that of Robert McNeely, American consul at Aden, Arabia. The sinking of the Persia without warning, just after Austria had yielded to American demands in the Ancona case, makes the situation all the more serious. Baron Zwiedinek, representing Austria at Washington, has asked the American people to suspend judgment until after all the facts are known. Complete confidence prevails in Teutonic diplomatic circles that if an Austrian submarine sank the Persia without warning the act would be disavowed promptly, reparation made for American lives and the submarine commander severely punished.

Mr. McNeely at the time of the disaster was on his way to his first consular post. He was appointed to the Aden consulate in October, 1915. He was born in Waxhaw, N. C., November 12, 1883, and his home was in Monroe, N. C. He was a member of the North Carolina legislature from 1908 to 1910.
